

SUBJECT INDEX

Note: Abstract Index follows Author Index

A

***Acanthamoeba* sp.**

The epidemiology of *Acanthamoeba* keratitis in the United States, 331

Acetylcholine

Effects of carbachol and acetylcholine on intraocular pressure after cataract extraction, 7

***Acinetobacter* sp.**

Acinetobacter corneal ulcer after penetrating keratoplasty (letter), 677

Acquired immunodeficiency syndrome

Endogenous bacterial retinitis in AIDS, 613

Optic neuropathy associated with cryptococcal arachnoiditis in AIDS patients, 523

Prevalence and significance of acquired immunodeficiency syndrome-related retinal microvasculopathy, 229

Slowed saccades in the acquired immunodeficiency syndrome, 356

Adenoma

A 16-year follow-up in a corticosteroid-sensitive patient with glaucoma secondary to a benign adrenal adenoma (letter), 293

Afferent pupillary defect

Kestenbaum's number as an indicator of pupillomotor input asymmetry, 528

Occlusion-induced contralateral afferent pupillary defect (letter), 306

Relative afferent pupillary defect induced by patching (letter), 305

Aging

Age-related changes in the extracellular matrix of the human optic nerve head, 476

Subretinal hemorrhage in atrophic age-related macular degeneration, 38

Visual results with low-vision aids in age-related macular degeneration (correspondence), 564

Albinism

Iris pigment mosaicism in carriers of X-linked ocular albinism cum pigmento (letter), 298

Aminocaproic acid

Intraocular pressure increase associated with traumatic epsilon-aminocaproic acid therapy for traumatic hyphema (correspondence), 568

Anemia

Ocular myasthenia gravis associated with autoimmune hemolytic anemia and Hashimoto's thyroiditis (letter), 90

Anhidrosis

Spelling of anhidrosis (letter), 195

Anterior chamber

Neural crest origin of trabecular meshwork cells and other structures of the anterior chamber (editorial), 671

Antibiotic drugs

Postoperative instillation of low-dose mitomycin C in the treatment of primary pterygium (correspondence), 570

Antigen

Lymphocyte proliferative responses of patients with ocular toxoplasmosis to parasite and retinal antigens, 632

Rapid streptococcal antigen detection in experimental keratitis, 60

Artery occlusion

Bilateral central retinal artery occlusions, disk drusen, and migraine, 236

Astigmatism

Corneal topography of transverse keratotomies for astigmatism after penetrating keratoplasty, 323

The effect of suture removal on postkeratoplasty astigmatism (correspondence), 92

Irregular astigmatism after radial and astigmatic keratotomy, 42

B

Balloon buckle

Results of a temporary balloon buckle in the treatment of 500 retinal detachments and a comparison with pneumatic retinopexy, 381

Basement membrane

An unusual case of epithelial basement membrane dystrophy (letter), 552

Blindness

Organizing to prevent third world blindness (editorial), 544

- Transplantation of congenitally opaque corneas from eyes with exaggerated buphthalmos, 655

Corneoscleral limbus

A benign nevus of cornea and corneoscleral limbus (letter), 304

Corneoscleritis

Bacterial corneoscleritis complicating pterygium excision, 515

Corrections

Congenital idiopathic microcoria, 106:590; correction, 439

Corticosteroid

Adrenal suppression after corticosteroid injection of periorbital hemangiomas, 518

A 16-year follow-up in a corticosteroid-sensitive patient with glaucoma secondary to a benign adrenal adenoma (letter), 293

Cryotherapy

Long-term results of cryotherapy on malignant epithelial tumors of the conjunctiva, 337

Cyclopentolate

Systemic absorption of ophthalmic cyclopentolate (letter), 562

Cyclophotocoagulation

A technique for precise placement of laser applications in transscleral Nd:YAG cyclophotocoagulation (letter), 292

Cyclosporine

Idiopathic inflammatory orbital pseudotumor and low-dose cyclosporine (letter), 547

Immunohistologic findings and results of treatment with cyclosporine in ligneous conjunctivitis, 160

The use of cyclosporine in high-risk keratoplasty, 506

Cytomegalovirus

Dual infection of retina with human immunodeficiency virus type 1 and cytomegalovirus, 361

D**Danazol**

Pseudotumor cerebri induced by danazol, 105

Diplopia

Intractable diplopia after vision restoration in unilateral cataract, 23

Doxycycline

The effect of doxycycline on ocular rosacea (letter), 434

Drusen

Bilateral central retinal artery occlusions, disk drusen, and migraine, 236

Dry-eye syndrome

Ophthalmic solutions, the ocular surface, and a unique therapeutic artificial tear formulation, 348

Verriest, Guy 1927-1988 (MARRÉ, M.), 314

Occlusion

Occlusion-induced contralateral afferent pupillary defect (letter), 306

Ocular toxicity

Lithium-induced downbeat nystagmus, 664

Systemic absorption of ophthalmic cyclopentolate (letter), 562

Topical carbonic anhydrase inhibitors, 280

Open-angle glaucoma

Bilateral argon laser trabeculoplasty in primary open-angle glaucoma, 591

Intraocular pressure effects of carbonic anhydrase inhibitors in primary open-angle glaucoma, 11

Ophthalmopathy

Bromocriptine therapy for thyroid ophthalmopathy (letter), 680

Optic disk

Large optic disks in the Marshallese population, 145

Optic disk size in ischemic optic neuropathy (correspondence), 685

- Pseudoglaucomatous physiologic large cups, 137
- Reversible optic disk cupping and visual field improvement in adults with glaucoma, 485
- Optic nerve**
- Accuracy of topographic measurements with the optic nerve head analyzer, 273
- Age-related changes in the extracellular matrix of the human optic nerve head, 476
- Magnetic resonance imaging of retrobulbar changes in optic nerve position with eye movement (letter), 82
- Optic neuropathy**
- Optic disk size in ischemic optic neuropathy (correspondence), 685
- Optic neuropathy associated with cryptococcal arachnoiditis in AIDS patients, 523
- The spectrum of optic nerve disease in human immunodeficiency virus infection, 373
- Orbit**
- Idiopathic inflammatory orbital pseudotumor and low-dose cyclosporine (letter), 547
- Nasolacrimal drainage system obstruction after orbital decompression (correspondence), 91
- Nasolacrimal drainage system obstruction after orbital decompression (correspondence), 92
- Orbital hemorrhage and eyelid ecchymosis in acute orbital myositis, 111

P

Papilledema

- Pseudotumor cerebri induced by danazol, 105

Patching

- Relative afferent pupillary defect induced by patching (letter), 305

Pellucid marginal degeneration

- Acute hydrops in pellucid marginal corneal degeneration, 167

Penetrating keratoplasty

- Acinetobacter* corneal ulcer after penetrating keratoplasty (letter), 677
- Changing indications for penetrating keratoplasty, 1984-1988 (letter), 550
- Corneal topography of transverse keratotomies for astigmatism after penetrating keratoplasty, 323
- The effect of hard contact lens wear on the keratonic corneal endothelium after penetrating keratoplasty, 246
- Penetrating keratoplasty for herpes zoster keratopathy, 257
- Penetrating keratoplasty for pseudophakic bullous keratopathy associated with semiflexible, closed-loop anterior chamber intraocular lenses, 252

Perfluorocarbon liquids

- Controlled delivery of perfluorocarbon liquids (letter), 299

Perimetry

- Increase of the short-term fluctuation of the differential light threshold around a physiologic scotoma, 417
- Retinal ganglion cell atrophy correlated with automated perimetry in human eyes with glaucoma, 453
- Threshold equivalence between perimeters, 493

Perspectives

- The expanding ophthalmologic spectrum of Lyme disease, 77
- The expanding ophthalmologic spectrum of Lyme disease (correspondence), 684
- A laboratory approach to rapid diagnosis of ocular infections and prospects for the future, 283
- The persistent challenge of ocular trauma, 421
- Topical carbonic anhydrase inhibitors, 280

Photocoagulation

- Semiconductor diode laser photocoagulation of human malignant melanoma (letter), 295
- Transscleral Nd:YAG photocoagulation for cataract incision vascularization associated with recurrent hyphema (letter), 681

Photophobia

- Early diagnosis of tyrosinemia type II (letter), 559

Pilocarpine

- Timolol-pilocarpine combined vs timolol and pilocarpine given separately, 465

Pneumocystis sp.

- A clinical, histopathologic, and electron microscopic study of *Pneumocystis carinii* choroiditis, 218

Pseudomonas sp.

- Pseudomonas* corneal ulcers after artificial fingernail injuries (letter), 548

Pseudophakia

- Accurate ultrasonic biometry in pseudophakia (letter), 189

Pseudotumor

- Idiopathic inflammatory orbital pseudotumor and low-dose cyclosporine (letter), 547
- Pseudotumor cerebri induced by danazol, 105
- Pseudotumor cerebri syndrome associated with Lyme disease (letter), 81

Pterygium

- Bacterial corneoscleritis complicating pterygium excision, 515
- The effect of pterygia on contrast sensitivity and glare disability, 407
- Postoperative instillation of low-dose mitomycin C in the treatment of primary pterygium (correspondence), 570

Pupil

Congenital idiopathic microcoria (correspondence), 439

Congenital idiopathic microcoria, 106:590; correction, 439

Kestenbaum's number as an indicator of pupillomotor input asymmetry, 528

R**Radial keratotomy**

Diurnal variation in vision after radial keratotomy, 262

Topographic analysis and visual acuity after radial keratotomy (correspondence), 436

Radiation therapy

Effect of various doses of radiation for uveal melanoma on regression, visual acuity, complications, and survival, 114

Failure of preenucleation radiation to decrease uveal melanoma mortality (correspondence), 440

Reconstructive surgery

Double upper eyelid crease with a hereditary pattern (letter), 300

Posterior lamellar eyelid reconstruction with a hard palate mucosal graft, 609

Sudden unilateral visual loss after autologous fat injection into the glabellar area (letter), 85

Retina

Branch retinal vein occlusion in sarcoidosis (letter), 561

Dual infection of retina with human immunodeficiency virus type 1 and cytomegalovirus, 361

Evaluation of phototoxic retinal damage after argon laser iridotomy, 398

The golden tapetal sheen reflex in retinal disease, 211

Inherited retinal venous beading (correspondence), 686

Nd:YAG laser photodisruption of hemorrhagic detachment of the internal limiting membrane, 33

Nd:YAG laser photodisruption of hemorrhagic detachment of the internal limiting membrane (correspondence), 566

Retinal ganglion cell atrophy correlated with automated perimetry in human eyes with glaucoma, 453

The site of operating microscope light-induced injury on the human retina, 390

Subretinal hemorrhage in atrophic age-related macular degeneration, 38

Retinal detachment

The management of retinal detachment complicating degenerative retinoschisis, 171

Results of a temporary balloon buckle in the treatment of 500 retinal detachments and a comparison with pneumatic retinopathy, 381

Retinal detachment after neodymium:YAG laser posterior capsulotomy, 531

Reversibility of the early stages of idiopathic macular holes, 241

Retinitis

Endogenous bacterial retinitis in AIDS, 613

Retinitis pigmentosa

Autosomal recessive pericentral pigmentary retinopathy (correspondence), 438

Retinoblastoma

Seven cases of trilateral retinoblastoma, 121

Retinopathy

Autosomal recessive pericentral pigmentary retinopathy (correspondence), 438

Prevalence and significance of acquired immunodeficiency syndrome-related retinal microvasculopathy, 229

Unilateral pigmentary retinopathy associated with ocular toxoplasmosis (letter), 682

Retinopexy

Previtreal space gas sequestration during pneumatic retinopexy (letter), 191

Results of a temporary balloon buckle in the treatment of 500 retinal detachments and a comparison with pneumatic retinopexy, 381

Retinoschisis

The management of retinal detachment complicating degenerative retinoschisis, 171

Retrobulbar space

Magnetic resonance imaging of retrobulbar changes in optic nerve position with eye movement (letter), 82

Rosacea

The effect of doxycycline on ocular rosacea (letter), 434

S**Saccades**

Slowed saccades in the acquired immunodeficiency syndrome, 356

Sarcoidosis

Branch retinal vein occlusion in sarcoidosis (letter), 561

Sclera

Glass bead implantation in the scleral cavity during evisceration (letter), 302

Mycobacterium chelonae scleral abscess after removal of a scleral buckle (letter), 557

A technique for precise placement of laser applications in transscleral Nd:YAG cyclophotocoagulation (letter), 292

Scleral buckle

Mycobacterium chelonae scleral abscess after removal of a scleral buckle (letter), 557

Scotoma

Increase of the short-term fluctuation of the differential light threshold around a physiologic scotoma, 417

The multiple evanescent white-dot syndrome with acute blind spot enlargement (letter), 425

Sebaceous carcinoma

Immunohistochemical staining of sebaceous cell carcinoma of the eyelid, 127

Silicone

Silicone intraocular lens power vs temperature (letter), 428

Silicone oil

Silicone oil injection after failed primary vitreous surgery in severe ocular trauma, 537

Squamous cell carcinoma

Conjunctival squamous cell carcinoma in a patient with human immunodeficiency virus infection (letter), 554

***Staphylococcus* sp.**

Staphylococcus aureus conjunctivitis and sepsis in a neutropenic patient (letter), 87

Syphilitic interstitial keratitis masquerading as staphylococcal marginal keratitis (letter), 431

***Streptococcus* sp.**

Postoperative endophthalmitis and asymptomatic bacteriuria caused by group G *Streptococcus* (letter), 430

Rapid streptococcal antigen detection in experimental keratitis, 60

Streptococcus salivarius endophthalmitis from contaminated donor cornea after keratoplasty (letter), 429

Stroma

Contact lens-related deep stromal neovascularization, 27

Contact lens-related deep stromal neovascularization (correspondence), 571

Suture

The effect of suture removal on postkeratoplasty astigmatism (correspondence), 92

Syphilis

Iridoschisis associated with syphilitic interstitial keratitis (letter), 88

Syphilitic interstitial keratitis masquerading as staphylococcal marginal keratitis (letter), 431

T**Tears**

Ophthalmic solutions, the ocular surface, and a unique therapeutic artificial tear formulation, 348

Ophthalmic solutions, the ocular surface, and a unique therapeutic artificial tear formulation (correspondence), 687

Telangiectasia

Ocular manifestations in hereditary hemorrhagic telangiectasia (Rendu-Osler-Weber disease), 642

Teratoma

Malignant teratoid medulloepithelioma of the ciliary body simulating persistent hyperplastic primary vitreous (letter), 296

Timolol

The time-course of intraocular pressure in timolol-treated and untreated glaucoma suspects, 471

Timolol-pilocarpine combined vs timolol and pilocarpine given separately, 465

Tonometry

A clinical evaluation of the BioPen, 596

An evaluation of the Tono-Pen for the measurement of diurnal intraocular pressure, 411

Toxoplasmosis

Lymphocyte proliferative responses of patients with ocular toxoplasmosis to parasite and retinal antigens, 632

Unilateral pigmentary retinopathy associated with ocular toxoplasmosis (letter), 682

Trabecular meshwork

Neural crest origin of human trabecular meshwork and its implications for the pathogenesis of glaucoma, 583

Neural crest origin of trabecular meshwork cells and other structures of the anterior chamber (editorial), 671

Trabecular repopulation by anterior trabecular meshwork cells after laser trabeculoplasty, 1

Trabeculoplasty

Bilateral argon laser trabeculoplasty in primary open-angle glaucoma, 591

Trabecular repopulation by anterior trabecular meshwork cells after laser trabeculoplasty, 1

Trauma

Epikeratophakia after ocular trauma, 268

Intraocular pressure increase associated with traumatic epsilon-aminocaproic acid therapy for traumatic hyphema (correspondence), 568

The persistent challenge of ocular trauma, 421

Silicone oil injection after failed primary vitreous surgery in severe ocular trauma, 537

Trochlear nerve

Contralateral trochlear nerve paresis and ipsilateral Horner's syndrome, 73

Tumor

Long-term results of cryotherapy on malignant epithelial tumors of the conjunctiva, 337

U**Uvea**

DNA cell cycle studies in uveal melanoma, 65

Effect of various doses of radiation for uveal melanoma on regression, visual acuity, complications, and survival, 114

Failure of preenucleation radiation to decrease uveal melanoma mortality (correspondence), 440

Other cancers in uveal melanoma patients and their families, 601

V

Vein occlusion

Branch retinal vein occlusion in sarcoidosis (letter), 561

Venous beading

Inherited retinal venous beading (correspondence), 686

Visual acuity

Effect of various doses of radiation for uveal melanoma on regression, visual acuity, complications, and survival, 114

Mean visual acuity (letter), 564

Topographic analysis and visual acuity after radial keratotomy (correspondence), 436

Visual field

Increase of the short-term fluctuation of the differ-

ential light threshold around a physiologic scotoma, 417

Reversible optic disk cupping and visual field improvement in adults with glaucoma, 485

Visual loss

Sudden unilateral visual loss after autologous fat injection into the glabellar area (letter), 85

Vitreoretinopathy

Management of anterior and posterior proliferative vitreoretinopathy. XLV Edward Jackson Memorial Lecture (correspondence), 196

Vitreous

Malignant teratoid medulloepithelioma of the ciliary body simulating persistent hyperplastic primary vitreous (letter), 296

Silicone oil injection after failed primary vitreous surgery in severe ocular trauma, 537

Thrombocytopenia and vitreous hemorrhage complicating ganciclovir treatment (letter), 560

Ultrastructural studies of vitreomacular traction syndrome, 177

ABSTRACT INDEX

A

Abducens nerve

Infarction of abducens nerve fascicle as cause of isolated sixth nerve palsy related to hypertension, 100

Acquired immunodeficiency syndrome

The diagnosis of cytomegalovirus retinitis, 447

Eye movement abnormalities as a predictor of the acquired immunodeficiency syndrome dementia complex, 97

Treatment of cytomegalovirus retinitis in patients with AIDS, 206

Aging

Influence of age on the transparency of the lens in normals. A population study with help of the Lens Opacity Meter 701, 100

Optic neuritis in the elderly. Prognosis for visual recovery and long-term follow-up, 449

Anesthesia

Addition of hyaluronidase to lignocaine with adrenaline for retrobulbar anaesthesia in the surgery of senile cataract, 99

Arteritis

Anterior ischemic optic neuropathy. Nonarteritic form in small and giant cell arteritis in normal sized optic discs, 578

Artery occlusion

The relation of retinal artery occlusion and carotid artery stenosis, 318

B

Betaxolol

A comparison of betaxolol and timolol in open angle glaucoma and ocular hypertension, 97

Birdshot chorioretinopathy

Birdshot chorioretinopathy. Clinical characteristics and evolution, 98

Borrelia sp.

Optic neuropathy in *Borrelia* infection, 205

C

Carcinoma

Unilateral exophthalmos three years after treatment of cervical and mediastinal Hodgkin's disease, 696

Cardiovascular effects

The ocular ischemic syndrome, 99

Carotid artery

The relation of retinal artery occlusion and carotid artery stenosis, 318

Cataract

Addition of hyaluronidase to lignocaine with adrenaline for retrobulbar anaesthesia in the surgery of senile cataract, 99

Cystoid macular edema following extracapsular cataract extraction and posterior chamber intraocular lens implantation, 449

Effect of ultraviolet radiation on cataract formation, 206

Epithelial downgrowth. A 30-year clinicopathological review, 577

Idiopathic presenile cataract formation and galactosaemia, 578

Marner's cataract (CAM) assigned to chromosome 16. Linkage to haptoglobin, 316

Chalazion

Chalazion therapy. Intralesional steroids versus incision and curettage, 315

Children

Juvenile glaucoma, race and refraction, 448

Recovery after optic neuritis in childhood, 317

Choroid

Retinal and choroidal vascular occlusion secondary to corticosteroid embolisation, 577

Choroiditis

Macular serpinginous choroiditis, 318

Conjunctiva

Conjunctival xerosis in cystic fibrosis, 579

Conjunctivitis

Persistence of inclusion conjunctivitis after oral erythromycin therapy, 316

Contrast sensitivity

Contrast sensitivity in patients with posterior chamber intraocular lens implants, 577

Cornea

Corneal endothelial cell density after trabeculoplasty, 100

Corticosteroid

Chalazion therapy. Intralesional steroids versus incision and curettage, 315

Retinal and choroidal vascular occlusion secondary to corticosteroid embolisation, 577

Cryotherapy

Cryotherapy in infants with retinopathy of prematurity, 695

Cystoid macular edema

Cystoid macular edema following extracapsular cataract extraction and posterior chamber intraocular lens implantation, 449

Cytomegalovirus retinitis

The diagnosis of cytomegalovirus retinitis, 447

Treatment of cytomegalovirus retinitis in patients with AIDS, 206

D**Dermoids**

Ocular dermoids, 580

Diabetes

Glucose control and the renal and retinal complications of insulin-dependent diabetes, 695

E**Ectopia lentis**

A closer look at the eye in homocystinuria. A screened population, 205

Endothelium

Corneal endothelial cell density after trabeculoplasty, 100

Enzyme

Fucosidosis. Ultrastructural study of the eye in an adult, 694

Epiretinal membrane

Vitrectomy for idiopathic epiretinal membranes causing macular pucker, 99

Epithelium

Epithelial downgrowth. A 30-year clinicopathological review, 577

Erythromycin

Persistence of inclusion conjunctivitis after oral erythromycin therapy, 316

Esotropia

Changes in the refractive error of 94 spectacle-treated patients with acquired accommodative esotropia, 577

Exfoliation syndrome

Light microscopy of the exfoliation syndrome, 315

Exophthalmos

Unilateral exophthalmos three years after treatment of cervical and mediastinal Hodgkin's disease, 696

Eyedrops

Inadequacy of current labeling of nonophthalmic drops, 449

Eyelid

Eyelid pigment implantation. Early and late histopathology, 318

F**Fluorescein**

Intraocular transplantation of fluorescently labeled retinal cell suspensions, 206

Fucosidosis

Fucosidosis. Ultrastructural study of the eye in an adult, 694

G**Galactokinase**

Idiopathic presenile cataract formation and galactosaemia, 578

Galactosemia

Idiopathic presenile cataract formation and galactosaemia, 578

Genetics

Fucosidosis. Ultrastructural study of the eye in an adult, 694

Lowe oculocerebrorenal syndrome. DNA-based linkage of the gene to Xq24-q26, using tightly linked flanking markers and the correlation to lens examination in carrier diagnosis, 694

Marner's cataract (CAM) assigned to chromosome 16. Linkage to haptoglobin, 316

Mitochondrial DNA mutation associated with Leber's hereditary optic neuropathy, 450

The ocular signs and complications of epidermolysis bullosa, 99

The oculocerebrocutaneous (Delleman) syndrome, 317

Glaucoma

Acquired peripapillary changes and progression in glaucoma, 447

Juvenile glaucoma, race and refraction, 448

The Molteno implant in intractable glaucoma, 578

Neuroretinal rim area and visual field in glaucoma, 317

Glioma

Malignant optic glioma in adults, 696

H**Histoplasmosis**

Subfoveal neovascularization in the ocular histoplasmosis syndrome, 580

Hyaluronidase

Addition of hyaluronidase to lignocaine with adrenaline for retrobulbar anaesthesia in the surgery of senile cataract, 99

Histiocytosis

Xanthoma disseminatum. An unusual histiocytosis syndrome, 97

I**Immunology**

Immunocytochemical parameters in ocular malignant melanoma, 204

Infants

Cryotherapy in infants with retinopathy of prematurity, 695

Retinopathy of prematurity and bilirubin, 579

Injuries

Hyperthermia protects against light damage in the rat retina, 207

Intraocular lens

Contrast sensitivity in patients with posterior chamber intraocular lens implants, 577

Cystoid macular edema following extracapsular cataract extraction and posterior chamber intraocular lens implantation, 449

Intraocular pressure

Acquired peripapillary changes and progression in glaucoma, 447

A comparison of betaxolol and timolol in open angle glaucoma and ocular hypertension, 97

The consensual ophthalmotonic reaction, 204

Ischemia

The ocular ischemic syndrome, 99

L**Labeling system**

Inadequacy of current labeling of nonophthalmic drops, 449

Laser

Long-term follow-up of a prospective trial of argon laser photocoagulation in the treatment of central serous retinopathy, 204

Photocoagulation of raised new vessels by long-duration low-energy argon laser photocoagulation. A preliminary study, 204

The principles of laser sclerostomy, 580

The tunable dye laser in the management of retinal vascular disease, 579

Lens

Growth and transparency in the lens, an epithelial tissue, stimulated by pulses of PDGF, 206

Influence of age on the transparency of the lens in normals. A population study with help of the Lens Opacity Meter 701, 100

Lowe oculocerebrorenal syndrome. DNA-based linkage of the gene to Xq24-q26, using tightly linked flanking markers and the correlation to lens examination in carrier diagnosis, 694

Lowe's syndrome

Lowe oculocerebrorenal syndrome. DNA-based linkage of the gene to Xq24-q26, using tightly linked flanking markers and the correlation to lens examination in carrier diagnosis, 694

Lymphoma

Primary orbital lymphomas, 448

M**Macula**

Macular serpiginous choroiditis, 318

Photostress recovery in chronic open angle glaucoma, 98

Vitrectomy for idiopathic epiretinal membranes causing macular pucker, 99

Melanoma

Immunocytochemical parameters in ocular malignant melanoma, 204

Metabolic disorders

Attempts to define the minimal serum level of vitamin A required for normal visual function in a patient with severe fat malabsorption, 315

A closer look at the eye in homocystinuria. A screened population, 205

Conjunctival xerosis in cystic fibrosis, 579

Myopia

Spectacle-use, bifocals and prevention of myopic progression, 315

N**Neovascularization**

Photocoagulation of raised new vessels by long-duration low-energy argon laser photocoagulation. A preliminary study, 204

Subfoveal neovascularization in the ocular histoplasmosis syndrome, 580

Neuroretinal rim

Neuroretinal rim area and visual field in glaucoma, 317

Night blindness

Attempts to define the minimal serum level of vitamin A required for normal visual function in a patient with severe fat malabsorption, 315

Early trabeculectomy versus conventional management in primary open angle glaucoma, 447

Photostress recovery in chronic open angle glaucoma, 98

Optic disk

Acquired peripapillary changes and progression in glaucoma, 447

Anterior ischemic optic neuropathy. Nonarteritic form in small and giant cell arteritis in normal sized optic discs, 578

Pseudopapilledema associated with abnormally small optic discs, 97

Variability of the real dimensions of normal human optic discs, 316

Optic neuritis

Optic neuritis in the elderly. Prognosis for visual recovery and long-term follow-up, 449

Recovery after optic neuritis in childhood, 317

Optic neuropathy

Anterior ischemic optic neuropathy. Nonarteritic form in small and giant cell arteritis in normal sized optic discs, 578

Autoimmune optic neuropathy: evaluation and treatment, 449

Mitochondrial DNA mutation associated with Leber's hereditary optic neuropathy, 450

Optic neuropathy in *Borrelia* infection, 205

Orbit

Primary orbital lymphomas, 448

P**Palsy**

Infarction of abducens nerve fascicle as cause of isolated sixth nerve palsy related to hypertension, 100

Papilledema

Pseudopapilledema associated with abnormally small optic discs, 97

Photocoagulation

Long-term follow-up of a prospective trial of argon laser photocoagulation in the treatment of central serous retinopathy, 204

Photocoagulation of raised new vessels by long-duration low-energy argon laser photocoagulation. A preliminary study, 204

Pseudotumor cerebri

Electrophysiology versus psychophysics in the detection of visual loss in pseudotumor cerebri, 205

R**Radiation**

Effect of ultraviolet radiation on cataract formation, 206

Refraction

Juvenile glaucoma, race and refraction, 448

Refractive error

Changes in the refractive error of 94 spectacle-treated patients with acquired accommodative esotropia, 577

Renal disease

Tear urea nitrogen and creatinine levels in renal patients, 577

Retina

Glucose control and the renal and retinal complications of insulin-dependent diabetes, 695

Hyperthermia protects against light damage in the rat retina, 207

Intraretinal transplantation of fluorescently labeled retinal cell suspensions, 206

Retinal and choroidal vascular occlusion secondary to corticosteroid embolisation, 577

The tunable dye laser in the management of retinal vascular disease, 579

Retinal detachment

New hypotheses on the pathogenesis and treatment of serous retinal detachment, 448

Retinopathy

Central serous chorioretinopathy in U.S. Air Force aviators. A review, 694

Long-term follow-up of a prospective trial of argon laser photocoagulation in the treatment of central serous retinopathy, 204

New hypotheses on the pathogenesis and treatment of serous retinal detachment, 448

Patterns of visual loss in untreated sickle cell retinopathy, 578

Retinopathy of prematurity

Cryotherapy in infants with retinopathy of prematurity, 695

Retinopathy of prematurity and bilirubin, 579

S**Sarcoidosis**

Sarcoidosis of the anterior visual pathway. Successes and failures, 695

Sclerostomy

The principles of laser sclerostomy, 580

Sickle cell trait

Patterns of visual loss in untreated sickle cell retinopathy, 578

Spectacles

Changes in the refractive error of 94 spectacle-treated patients with acquired accommodative esotropia, 577

Spectacle-use, bifocals and prevention of myopic progression, 315

T**Tears**

Tear urea nitrogen and creatinine levels in renal patients, 577

Timolol

A comparison of betaxolol and timolol in open angle glaucoma and ocular hypertension, 97

Trabeculectomy

Early trabeculectomy versus conventional management in primary open angle glaucoma, 447

Trabeculoplasty

Corneal endothelial cell density after trabeculoplasty, 100

Trachoma

Vernal keratoconjunctivitis and trachoma, 448

Trauma

The ocular signs and complications of epidermolysis bullosa, 99

V**Vernal keratoconjunctivitis**

Vernal keratoconjunctivitis and trachoma, 448

Visual field

Neuroretinal rim area and visual field in glaucoma, 317

Visual loss

Electrophysiology versus psychophysics in the detection of visual loss in pseudotumor cerebri, 205

Patterns of visual loss in untreated sickle cell retinopathy, 578

Visual pathway

Sarcoidosis of the anterior visual pathway. Successes and failures, 695

Vitamin

Attempts to define the minimal serum level of vitamin A required for normal visual function in a patient with severe fat malabsorption, 315

Conjunctival xerosis in cystic fibrosis, 579

Vitreotomy

Vitreotomy for idiopathic epiretinal membranes causing macular pucker, 99

X

Xanthoma disseminatum

Xanthoma disseminatum. An unusual histiocytosis syndrome, 97
